Tips to reduce parking tickets:

- If you are planning a short term stay Downtown, remember on-street parking has a maximum of three hours.
- Short term to long term parking is available at free lots throughout the Downtown. Check this map to find the most convenient parking lot nearest the area you intend to visit.
- Remember to look up and read the street signs. Not all on street parking regulations are the same.
- Your vehicle must be parallel to the curb, your tires must not be in excess of 6" from the curb and your front or rear bumper should not encroach a white line.
- Disabled and reserved parking and loading zones are clearly marked. Drivers often pull into these spaces to wait for a friend or to run a quick errand. These spaces are reserved for those that require them or to enable service to businesses in the Downtown core. Thank you for respecting the need for all to have access to our Downtown New Glasgow shops and services and the need to keep accessibility to our local businesses available.
